

WEEKLY NEWSLETTER

Friday 9th June 2023

Dear Parents/Carers

Welcome back to the last half term of this academic year. I hope you all enjoyed the half term and the lovely weather.

We have such a lot to pack in during these last few weeks so please make sure you keep an eye on the diary.

Coronation fayre

What a fabulous afternoon we had at the coronation picnic and fayre just before the half term, thank you so much to everyone who came along and supported us. I'm pleased to say we raised a wonderful **£603.91** which will be used to develop our memory garden for Miss Bailey. We are very excited to get this project underway.

September starters and EYFS changes

This week I have had a lovely time meeting with our new families who are starting in Reception in September, they will be a great addition to our team in September. We still have some spaces available in EYFS, if you know of anyone who is still looking for a school or nursery place please tell them to get in contact. The whole of the EYFS block is being revamped in the summer, with a freshen up and new equipment being added. It is going to be amazing and it will greatly add to the already amazing learning opportunities that are taking place with the outside area – it will be transformed along with the rest of the school!

Attendance

Can I remind everyone that attending school daily is so important. Our Education & Inclusion Officer has been in again this week to check all areas of attendance including lateness, patterns of non-attendance and holiday requests. Mrs Willshire is available daily if you have any concerns. This half term we will be giving awards for all those children who have achieved 100% attendance.

Parking

Once again I feel the need to address parking around school in both the mornings and afternoons. We have to make sure that the emergency services have access to the road the whole time, not just for the school but for everyone that lives along West Street. None of us want anyone to get hurt if they are not able to reach them. Please don't embarrass us by having to ask you to move your cars. There are many places to park around Brading which will enable you to walk to and from school with your children.

Finally, now that the weather is lovely and sunny please remember sun cream needs to be applied before school and children will need to bring in a named hat to wear at break and lunch times. Also, please ensure your children are bringing water bottles in every day to keep them hydrated.

Enjoy the weekend and remember my door is always open.

Mrs Gilbert.

DATES FOR YOUR DIARY

Fri 9th June

Year 5 leading Collective Worship

Fri 16th June

Year 6 leading Collective Worship

Tues 20th June

Class photographs & year 6 leaver book session

Fri 23rd June

Year 2 leading Collective Worship
Year 6 sailing at UKSA

Fri 30th June

Bible Reflection

Psalm 97:1

'May God be gracious to us and
bless us and make his face shine
on us'

Lunch Menu – week commencing Monday 12th June 2023

	<i>Monday</i>	<i>Tuesday</i>	<i>Wednesday</i>	<i>Thursday</i>	<i>Friday</i>
<i>Main</i>	Cheese & Tomato Pizza	Macaroni Cheese	Roast Gammon	Lasagne	Fish Fingers & Chips
<i>Alternative option</i>	Tomato Pasta Jacket Potato	Tomato Pasta Jacket Potato	Tomato Pasta Jacket Potato	Tomato Pasta Jacket Potato	Quorn Nuggets Tomato Pasta Jacket Potato
<i>Dessert</i>	Oat Chocolate Cookie & Fruit	Orange Jelly	Chocolate & Banana Marble Cake	Flapjack & Fruit	Chocolate Shortbread

Attendance – 22/05/23 – 26/05/23

Class	Attendance
St Lucia	87.6%
Maldives	98.1%
★ Cuba ★	100%
New Zealand	97%
Malta	99.2%
Galapagos	90.4%
Iceland	81.7%
Jamaica	92.9%
Hawaii	76.7%

THIS WEEK AT BRADING...

Hawaii

This week the children started exploring their new topic, pirates and under the sea. We made a boat in the classroom and the children travelled across different oceans by watching videos. They saw different animals, waves and plants in the sea. We then made a waterslide and tried different ways of making our boat travel including using washing up liquid to make waves.

Malta

This week in Malta class we have been busy looking at our new topic "huge hills and mighty mountains". In English, we looked at our text driver "First to the top" and started planning a diary entry as if we were Sir Edmund Hillary, an explorer who climbed Mount Everest. In maths, we have started our geometry topic and have spent the week measuring different angles.

Galapagos

We have had a brilliant week back filled with lots of learning and fun! In maths, we've been looking at angles and positions and in English we have been doing conscience alley's and thought walls to generate arguments and vocabulary for our persuasive writing.

Iceland

What an incredible week we've had together! We started our week by diving into the world of literature with "The Day the Crayons Quit." Inspired by Duncan's adventures, we embarked on our own writing expedition, drafting a formal letter as Duncan to express our thoughts and feelings. We explored the power of words and how they can be used to communicate our ideas effectively.

In mathematics, we sharpened our skills by tackling the tricky task of converting units. We delved into the world of measurement and learned how to convert centimetres to meters, grams to kilograms, and so much more. It was like solving puzzles with numbers and discovering the secret codes of mathematics!

Geography was a thrilling adventure as we explored why people settled in specific places. We learned about the different factors that influenced human settlement, such as access to water, availability of resources, and favourable climate conditions. It was fascinating to understand why certain communities and civilizations thrived in specific locations, and we even imagined ourselves as ancient settlers, contemplating where we would choose to build our homes.

Finally, one of the highlights of the week was our amazing class assembly on the history of Brading. We brought history to life as we researched and presented key events and significant individuals from the past.

Jamaica

This week in Jamaica, we wrote about short films. We played Endzone on Monday. In science, we were learning about electricity. In topic we were drawing a fact file about North and South American countries. Also in topic we had to make a South America jigsaw puzzle, using a piece of paper that had questions on it of North and South America. We had to find the answers using Google Maps.

THIS WEEK AT BRADING...

Antigua

This week in Antigua class we have continued to explore "people who help us" including lots of police and detective work.

We looked at our fingerprints, made a police car using boxes to ride in, worked in our role play police station, drew round our friends to make a police officer where we talked about how the police help us to stay safe!

New Zealand

Welcome back!

Thank you so much for joining our parent outcome session, we had a great time dressing up and going through the decades.

This week, we have been looking at unit and non-unit fractions in maths. In English, we acted out 'The Lighthouse Keeper's Lunch' and looked at the past tense. In science, we had our assessments for our understanding of plants.

We have enjoyed our hook and solved the puzzle and built the Isle of Wight. We drew a sketch map of our local area in geography. In PE, we learned about cricket and in music we have been learning to play the glockenspiels. What a busy but fun week we have had!

Mrs Attwell

Maldives

This week we have started learning about halves and quarters, the children have enjoyed working out how shapes can be folded to make 2 equal parts and have been splitting numbers by sharing between 2 groups. In English we have started our new text driver of 'Queen Victoria's Underpants' which the children have found hilarious. On Monday we received a letter from 'the King' asking if we could help him design something Queen Victoria might have used to make her life easier to display in a museum exhibition. After reading 'Queen Victoria's Underpants' the children were inspired to design their own underpants for her. They enjoyed thinking of colours, patterns and designs and it gave them an opportunity to enhance their writing through the use of adjectives. Our writing outcome for next week will be to write back to the King, so we will be telling him all about our designs.

St Lucia

This week in St Lucia we have started our new under the sea topic and the book we have been exploring is Commotion in the Ocean, the children have really enjoyed learning about the various sea animals and fun facts about them. We made fun under the sea pictures using white wax crayons and blue paint, jellyfish with ribbons and star fish with loose parts.

Monday 21 August (end of summer session)

What Parents & Carers Need to Know about OMETV

WHAT ARE THE RISKS?

OmeTV is another app which encourages users to 'make friends from all around the world'. People can search profiles by age and gender and send direct messages or photos. However, the app is primarily used for video calls. When using this feature, users are connected at random, although only their country of origin is shared. People can then either choose to move on to the next chat or can stay in that call for as long as they wish.

STRANGER DANGER

While young people generally know not to share personal information with strangers, the safety of their home and the distance offered by technology can make them feel more relaxed and uninhibited. Combined with the fact that OmeTV provides a webcam function – and anonymity – it can be an easy way for groomers to gather information, ask to connect on other social media platforms, or potentially request intimate images.

EXPLICIT CONTENT

Unfortunately, there are a lot of users who use OmeTV's webcam feature to expose themselves. While users can swipe to the next call quickly, it's not something that can be filtered out completely – so young people could easily be exposed to highly inappropriate images.

REPORTING DIFFICULTIES

When video calling, the other person's username is often hidden and therefore they can't be blocked or reported. There is a 'Report Abuse' tab at the bottom of the video, but the speed with which calls can swipe past can make it difficult to use this system. There's also little evidence to suggest that offenders are dealt with appropriately (through warnings or account termination, for example).

AGE VERIFICATION

17+

Although the site states that users must be 18 or over, there's no way to verify this, and it's easy to use an existing Facebook account to log in, or for users to set up a fake account. To access OmeTV, users simply need to press a button confirming they're an adult, which means it's likely many users will claim to be much older than they are.

VIDEO RECORDING

REC

When young people are chatting live on a webcam, they could be coaxed by others into doing things they don't feel comfortable doing, or persuaded that no harm can come from it. What they don't know is whether the other user is recording them. These videos could then be used to embarrass or blackmail them, or they could be kept by a potential online predator.

LIMITED PARENTAL CONTROLS

OmeTV has very limited parental controls. There is a 'safe mode', but this is of little practical use given that explicit content isn't filtered out. While the site lists several rules and regulations, there are few apparent ways to enforce them or restrict what users can see or do.

Advice for Parents & Carers

FOLLOW AGE GUIDELINES

OmeTV has an age recommendation of 18 and over, which suggests the developers are aware that it may facilitate adult content. It's important to adhere to the age guidelines and try to restrict access to the app for younger users. If you find it on an under-18's device, talk to them about the potential risks and explain why they probably shouldn't be using it.

DISCOURAGE CHATS WITH STRANGERS

Remind your child of the dangers of talking to strangers online. The anonymity OmeTV offers, plus its webcam function, makes it an attractive place for groomers to network and create inappropriate content. Explain that your child may see something which upsets them – and that it's a crime for anyone to expose themselves to a young person online.

DISCUSS THE DANGERS

Maintain communication with your child about online safety and empower them to protect themselves. Simply deleting an app from their device impacts their independence and can cause resentment. Instead, highlight news reports of predators exposing themselves to children on the internet, and discuss what they should do if asked for explicit images.

ENABLE PARENTAL CONTROLS

Regardless of how responsible your child may be, it's essential to use parental controls on their device. It's easy for young people to get lured in by others, feeling they've built up a trusting friendship and being coaxed into doing things they wouldn't normally do. Ensure in-app purchases aren't enabled on their device, and emphasise that they can always talk to you about anything online that worries them.

Meet Our Expert

Dr Claire Sutherland is an online safety consultant, educator and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.
