Truth, Respect, Unity, Sincerity, Tolerance

### This week our focus has been on TRUST.

Dear Parents/Carers

What a lovely week we have had to conclude the Spring term. Congratulations to those who won the prizes from our Easter competition, the winning designs can be found further down the newsletter.

I have had such great feedback from the parent/carer outcome sessions and the parent/carer evening, it has been lovely to hear how well your children are getting on. Don't forget teaching staff are available after school every day to catch up with you, but at the beginning of the day they need to be with the children to start their learning. Mrs Willshire and I are always available.

Fun clubs: Yesterday clubs are now live on SchoolMoney for KS1 and KS2 pupils, there is a fantastic range for the children to pick from! They will start week commencing Monday 15th April.

Finally, I would like to wish you all a happy Easter Holiday! Enjoy this special day and the holidays and I look forward to seeing you all back on Monday 15<sup>th</sup> April.

Mrs Gilbert.

Headteacher

### Collective Worship this week...

Thursday 28<sup>th</sup> March 2024

This week we continued our focus on TRUST.

### **Bible reflection:**

Matthew 28:6

He is not here; he has risen, just as he said.

Quay Arts & PEACH children's exhibition.

Year 6 children created artwork for an exhibition running over Easter. The theme was 'Connect' so we used Tessellation technique to create a school of fish. Three pieces were chosen for exhibition along with other schools across the Island. Madison's was chosen for display while Joel and Szymon's were chosen for the digital gallery.

The exhibit will run for 4 weeks, from 30th March - 27th April at Quay Arts. In the Claydon Gallery and also cafe. FREE ENTRY

https://www.quayarts.org/event/connect/

Please do go along in the holidays and see how we got involved.

Mrs Cooney

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the conflidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit nationalcollege.com.

#### What Parents & Educators Need to Know about CKR Clickbait is a controversial online marketing strategy which uses sensationalist (and frequently WHAT ARE misleading) headlines to encourage engagement with an article, image or video - often playing on users' emotions and curiosity, while much of the actual content is of questionable accuracy. THE RISKS? Clickbait is also sometimes used to disguise scams, phishing sites and malware. 00 HARMFUL PRIVACY MISINFORMATION PROBLEMS Clickbait tends to play fast and loese with the truth, opting for eye-catching content over objectivity. This is particularly dangerous for younger internet users, who are generally more susceptible to that type of material. A child could be presented with fake news, misleading articles and - in some cases - outright lies without fully understanding what they're viewing and why it's harmful. Some clickbalt leads to sites which could coax a child into volunteering their personal data – using pop-ups to ask them for their email address and phone number, for example, in exchange for accessing additional content or subscribing to various services. Normally, this YOU WO BELIEVE W harvested information is then sold to third parties, who often utilise it for targeted adv and other sales schemes. happens n CLICK HERE EA WARANT AL UNDER INAPPROPRIATE A DRAINING CONTENT DISTRACTION 600 LICK HERE Clickbalt encourages spiralling consumption of online content, which could easily result in a young person spending hours scrolling aimlessly instead of doing something productive or interacting with family and friends. This can leave them tired, asocial and lacking focus – and, in the long term, can negatively impact their social skills, education and mental wellbeing. e to the misleading nature of many examples Due to the misleading nature of many examples of clickbait, what may seem to be innocuous and child friendly could actually contain age-inappropriate material such as extremist political views or violent, pornographic or sexually explicit content. This is clearly a hazard for young people, who could be upset, disturbed or influenced by exposure to such subject matter matter HIDDEN IMPACT ON CLICK De\*# BEHAVIOUR MALWARE HERE KN While most clickbait is simply trying to promote engagement to earn companies additional revenue, some of it *does* redirect to dubious sites with the potential to infect devices with viruses or malware. This could put a child's sensitive data – such as their name, their location and their date of birth – at risk of being processed and emploited by malicious backets Depending on the type of clickbait a child is interacting with, you might notice negative changes in their behaviour. Weight loss sca CLICK HI for example, are common among clickbait and have the potential to influence eating habits and body image – while deliberately inflammatory 'rage balt' articles can leave impressionable young people feeling irritable, restless or argumentative. accessed and exploited by malicious hackers CLICK HERE Advice for Parents & Educators

### START A CONVERSATION

The sheer volume of clickbait can make protecting children against it quite challenging. It's vital to talk to young people regularly about the types of content they encounter online, so that they understand the risks of engaging with clickba if you're still concerned, it may also be wise to keep an eye on children's online activity to ensure they're not being tempted by clickbait headlines.

### SPOT THE TELLTALE SIGNS

There are certain common elements in clickbait, including headlines and images that use shock and outrage to grab people's attention – as well as numbered lists, such as "8 Facts You Won't Believe Are True". Some clickbait combines several of these tactics to snag users' interest. Learn to recognise ese techniques for yourself so you can

PROMOTE CRITICAL THINKING

TAKE CONTROL

Encouraging children to question the legitimacy of sensational headlines and tao-good-to-be-true promises will help them to become savvier online – and far less likely to be drawn in by clickbait content. These critical thinking skills will also serve to protect them in other areas of the digital world where misinformation is becoming

Many parents opt to place limits on how long their children can spend online each day, which obviously reduces the chance of exposure to clickbait. Alternatively, most internet-enabled devices have built-in controls that allow parents to manage what sort of online content their child can access - includi
